

Mini Book

by Ana Cabrera

This simple to create minibook features a variety of edges, one for each subject of the book. With more than a dozen Purple Cows decorative blades, families of every size can have unique edged pages! This book can be put together quickly and inexpensively making it a great project for parties and other big groups.

Supplies:

- Purple Cows Ultimate Rotary Trimmer
- 12" x 12" Bazzill Card Stock (one for each subject)
- Ink

1. Using a different edge for each subject, trim off one edge of a 12" x 12" paper. For each subject, we increased the trimmed piece by about an inch (This is so that you can see the various pages).
2. Now using the straight edge, cut each trimmed cardstock so that it is 4" tall.
3. Bind together as shown using a sewing machine. You can also use rings, ribbon, or wire to bond the book. What ever you prefer.
4. Ink the edges slightly to accentuate the edging.
5. Embellish the cover with your favorite stickers, rubons, jewels, and other items.
