

# Tangrams

by Ana Cabrera

Tangrams have been a staple in education for as long as we can remember. Why not jazz things up a little? Create puzzle patterns for students to try and solve. You can even make it into a project, allowing the children to trim and laminate the patterns and pieces.

## Supplies:

- Purple Cows Hot Laminating Kit  
OR Kool Laminator-Trimmer
- Decorative Card Stock
- Tangram Patterns

1. Print out the Tangram Patterns onto decorative paper. Trim to 4" x 6" using your Purple Cows Trimmer.
2. Using either your Purple Cows Hot Laminating Kit, or Kool Laminator- Trimmer Kit, laminate each pattern.
3. For younger children, you can put the answer to each puzzle on the back side of the pattern.
